CARRER SUMMARY

Student, To build career in a growing software organization where I get the opportunities to prove my abilities and technical skills by accepting the organizational goals through continuous learning and commitment

PROFESSIONAL EXPERIENCE

Intern 07/2024 – 10/2024
Hackveda
- Working as a Python intern at Hackveda, focusing on tasks involving Google Crawler and SMTP for data extraction and communication
- Conducting code reviews.
- Participating in daily stand-ups to ensure project success.

PROJECTS

AI Health Care Assisstent
Developed an AI Health Care Assistant using Flask and machine learning to predict diseases based on symptoms. Integrated NLP for symptom analysis and provided personalized recommendations for medications, diet, and lifestyle. Designed a user-friendly interface with secure data handling, ensuring privacy and accessibility.

Art Gallery
The **Art Gallery Mini Project** is an online platform where artists can display their creations, and users can explore, learn, and buy artworks. It connects art enthusiasts and artists, saving time and making art accessible from anywhere. Users can register, create profiles, upload paintings with descriptions, and even share tutorial videos. The platform ensures secure transactions and provides an easy-to-use interface for browsing and purchasing artworks.
